

## Fruit'Purée Green apple "Granny Smith" frozen

Our green apple, of the "Granny Smith" variety, is grown just a few kilometers from our production plant, on the slopes of the Rhône valley. It is harvested in October at the right maturity to preserve its vibrant green color and smooth, shiny skin. Very fragrant, its flesh is crunchy, juicy, and tangy.

Unpasteurized, and now 100% no added sugar other than those naturally present in the fruit, Fruit'Purée Green Apple "Granny Smith" offers an exceptionally fresh and thirst-quenching flavor, as well as a tangy pastel color.

Fruit'Purée Green apple "Granny Smith" is perfect for pastry, sorbet, cooking or drink.

### Preservation :

- 18°C (0°F)  
36 mois

### Defrosting:

Conseillé : entre 0°C et +4°C pendant 24 h environ et 48/72 h (5 et 20kg).  
Possibles : dans l'eau tiède ou au four micro-ondes (programme décongélation).

### Storage after defrosting/opening

Entre 0°C et +4°C pendant 48h maximum, sauf noix de coco, melon, papaye : 24 h maximum, purées de Fruits Secs : 1 mois.  
Ne pas recongeler

### Packaging

#### Tub (1 Kg, 500 g ou 400 g)

\* Low, compact rectangular form making it easy to hold and easy to store.

\* Peel-off film for perfect hygiene and product conservation.

\* Polypropylene pot adapted for deep freezing of food:

- microwave safe - resistant to shocks;
- translucent so the product is visible;
- reusable by the client.

\* Moulded lid in the same material as the pot:

- highly resistant and resealable for the best possible conservation of the product;

- designed to be stable when stacked.

\* IML labeling: molded into the pot for greater readability.

\* Two lids colors: green for our 'Classic' products and blue for our 'Elite' products.

### **Pail (5 Kg ou 20 Kg)**

\* A handle for easy to hold.

\* Polypropylene pail adapted for deep freezing of food:

- resistant to shocks;
- reusable by the client.

\* Moulded lid in the same material as the pot:

- highly resistant and resealable for the best possible conservation of the product;
- designed to be stable when stacked.
